LOGNOTE -- Chief, Operations Group, 8 July 1983

1. [] Talked with [] outgoing DDI Rep to EUCOM, Stuttgart. He went on at great length about the EUCOM Commander's range of information needs--Europe, Africa, the Near East to South Asia--and the need for rapid response to his queries. I showed him the list of requirements EUCOM has on file and pointed out that EUCOM is only one of hundreds of lateral service recipients; if he wants to receive the types of information he says he will need, under shifting circumstances, he must keep his requirements up to date with LRB. He said he would make some changes in his requirements before he left the building and make sure he knows how to get in contact with LRB once he gets to post.
